2	BUY	0.1	30	3	
	SEL	0.3	-60		-18
	BUY	0.6	30	18	
3	BUY	0.1	-60		-6
	SELL	0.3	30	9	
	BUY	0.6	-60		-36
	SELL	1.2	30	36	
4	BUY	0.1	30	3	
	SELL	0.3	-60		-18
	BUY	0.6	30	18	
	SELL	1.2	-60		-72
	BUY	2.4	30	72	

ALL ADDED UP TO 3PIPS

## DETAILS

1. A 90pips grid is set to achieve 30pips profit
2. Spread of the currency symbol set by the broker is added to the grid
3. Counter stop orders are placed within a 30 pips range interval with increase lot size
4. No stoploss

## FORMULA

Since a grid is a has to be set. The number of pip to be filled should be multiplied of 3 :

For instance if 20 pips has to be filled, the grid limit should be multiplied by 3 plus the spread, hence

20pips for buy zone, 20pips for gap and 20pips for sell zone include spread of symbol. **[60pips grid plus spread]**

## LOT SIZE CALCULATION:

(X)a , (3\*X)b, (B\*2)c, (C\*2)d, (D\*2)e.....and so on

(note value of "X" is the first lot size to at inception point.)

Eg. **0.1**, (3\*0.1)=**0.3**, 0.3\*2=**0.6**, 0.6\*2=**1.2**, 1.2\*2=**2.4**....
