Creating and posting a chart using MT4 trading software.

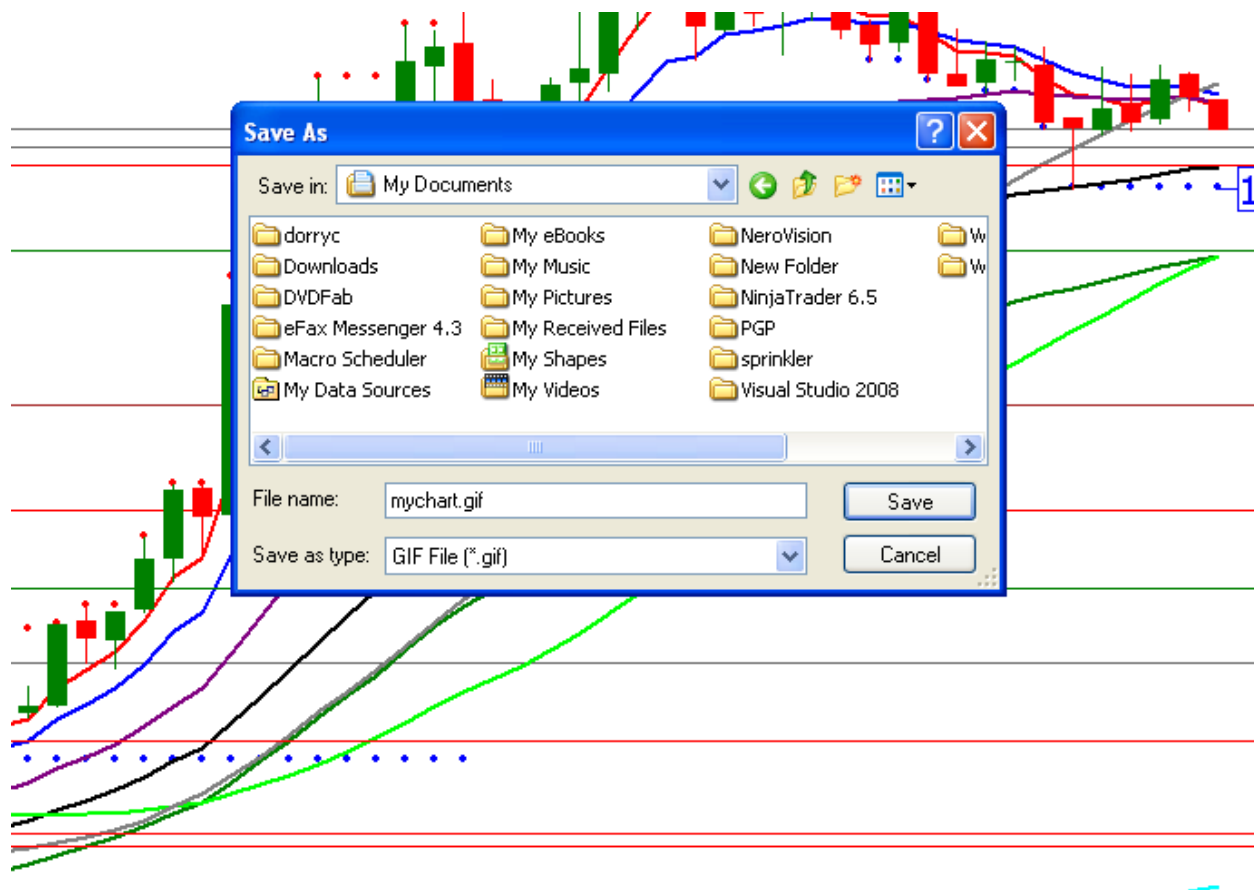

Step 1 – right click on the chart and select "Save as picture" (Note: Only part of the MT4 window/chart is shown below. I right clicked near the top left corner of the box that has the options in it)

Step 2 – Select middle option - Active chart (as is) and hit OK

Save As Picture

You may freely print out, reproduce, and distribute all screenshots of this product as long as the copyright notice can be seen at the bottom of the window.

Select the image you would like to save:

○ Active workspace

◉ Active chart (as is)

○ Active chart   800   x   600   pixels

OK   Cancel

Step 3 – Select the folder where you want to save the chart, enter a filename and hit save. In the example below it will be saved in the "MyDocuments" folder with a name of mychart.gif (You can choose the folder and chart name.)

Now you've created the chart – now lets post it to the thread.

1. Start by creating a new post. Type in your text but before hitting "Submit" click on the Attachments button (highlighted in blue in picture below). This will open a "Manage attachments window.

2. In the manage attachments window click on the top Choose File (Orangish border shown around button in picture below)

3. Select the folder and filename used earlier when saving the chart and then click open.

4. If adding a second attachment, repeat steps above using the bottom "Choose File" button. Otherwise, click on the upload button.

5. Close the Manage Attachment Window and then click "Submit Reply" to post your message with the chart attached.
