Budapest Forex Seminar
with FXTM.com

IN THIS SEMINAR

Discover the Psychology of Winning.

Take Control of Your Trading.

Employ a Complete Trading System.

Maximize Your Trading Results.

Protect Your Profits with our Bulletproof Risk Management Plan

Dear Trader,

My name is Dennis Popivoda and I invite you to attend our one-of-a-kind seminar that will take place on the 1st of April in Budapest.

The two best words that can define this seminar are: Producing Results.

To me, success in the markets and life, is the ongoing process of striving to become more. The road to success is always under construction, and by applying the ideas, tips and tools in this seminar, you will be able to produce astonishing results in a very short period of time.

There are two main things successful traders have in common and that is their mindset and losses, I am sure that at this seminar we will all have the losses in common, but this seminar is here to help you get the right mindset and head straight for those goals that are so dear to you.

In this seminar I will give you a self-made trading approach that is bound to yield impressive results, if applied correctly.

I look forward to seeing you in Budapest.

Always trade your very best,
Dennis Popivoda

The Event

What if your trading account was no longer a limitation but a powerful tool which you could use to create wealth with?

Imagine using practical tools, having the right kind of mindset and a concrete and definite plan? Wouldn't that just relax you and relieve you of all the stress the markets come with and let you focus on the outcome of winning?

This seminar will be revolutionary to the markets because that is exactly what it will do.

This PipsMatter Premium Seminar will equip you with everything you need to trade the markets professionally and achieve the outcome you, as a trader want.

There is nothing general about this seminar, it holds specific and self-created approaches to winning in the markets.

It just might hold the key you need to open that door to successful trading.

Charity

No one has become poor by giving and this is why with every event, PipsMatter.com connects with a charity.

A local, Hungarian, charity will be invited to our event, this time we want to help children in need by supplying them with necessities and a fun day will be provided with clowns and superheroes.

If we have 200 attendees, we will donate €500, if we have 300 well then we are going all in with €1,000.

Our tickets are generally much cheaper than other premium seminars that are held in the region, yet we are giving more knowledge, tools, information and of course love.

By attending our event you don't only help yourself.
