MT4 VSA Plug-In Installation

Thank you for purchasing the Trade Guider MT4 VSA Plug-In. In order for the MT4 VSA Plug-In to operate properly the Expert Advisors and external DLLs radio check boxes in the MT4 terminal must be enabled. To do so click on Tools->Options. From there click on the "Expert Advisors" Tab and fill out the tab according to the picture below. Then press "OK".

To apply the indicators and on-line help system right click on any chart and select "Template" then click on "TradeGuider".

If you need to register, after installation, please go to <http://www.tradeguider.com>
