

There is Demo version of this panel Dashboard Currency Strength Meter Advanced Demo in my product list, please try it out to get familiar with all functionalities free, [LINK](#).

The Dashboard Currency Strength Meter Advanced gives you a quick visual guide to which currencies are strong, and which ones are weak over the customized 4 timeframes and period. With the combination of usage of the 4 CSM, you are able to monitor almost all kinds of price patterns (see screenshot3, 4, and 5) and generate buy/sell signal based on the pattern you select.

Dashboard Currency Strength Meter Advanced is an intuitive and handy graphic tool to help you to:

- Have 28 pairs under control with one dashboard.
- Monitor all 28 pairs and provide trading signals based on the CSM selected, timeframe of the CSM, and the starting&ending candle selected, which combine to generate the specific PA pattern as desired. (see screenshot1, 2, 3, 4, and 5).
- Manage order automatically once signal are generated.
- Monitor your positions easily with one glance to know status of all trading pairs.

Entry Rules:

Refer to screenshot1, 2, 3, 4, and 5

Make sure completing the following action items to make this dashboard working.

Important Action Items before Using Dashboard

1. Download historical data of all 28 pairs. Use this free tool to download historical data by simple one-drag, [LINK](#).
2. Make sure you have all 28 symbols in Symbol window.
3. To make your dashboard looks clear and neat, it's better to apply the black template. Please refer to screenshot6.
