

Dashboard Simple Tokyo H1 is one of the top 10 Forex trading system/method/strategy discussed in ForexFactory forum. So far there are 494 pages of hot discussion on this trading system. For more detail on this system, please re-direct to [LINK](#).

This system basically utilizes two simple moving averages (10 SMA and 197 SMA) over 2 hours before Tokyo Open to generate trading signal mainly on timeframe H1. The signal will be further filtered by 1) M15 and M5 Fractals; 2) Stochastic

To facilitate you to understand and trade this system quickly and effectively, the collection of PDF manuals and tips are provided [HERE](#).

For who cannot access Google Drive, please find these resources in the thread or PM me.

Dashboard Simple Tokyo H1 is an intuitive and handy graphic tool to help you to:

- Have 28 pairs under control with one dashboard.
- Monitor all 28 pairs and provide trading signals based on the **Tokyo H1** rules (see screenshot 1, 2, and 3).
- Manage order automatically once signal are generated.
- Monitor your positions easily with one glance to know status of all trading pairs.

Entry Rules:

Refer to screenshot 1, 2, and 3

Make sure completing the following action items to make this dashboard working.

Important Action Items before Using Dashboard

1. Download historical data of all 28 pairs. Use this free tool to download historical data by simple one-drag, [link](#).
2. Make sure you have all 28 symbols in Symbol window.
3. To make your dashboard looks clear and neat, it's better to apply the black template. Please refer to screenshot4.
