

Install MetaTrader 4 (required)

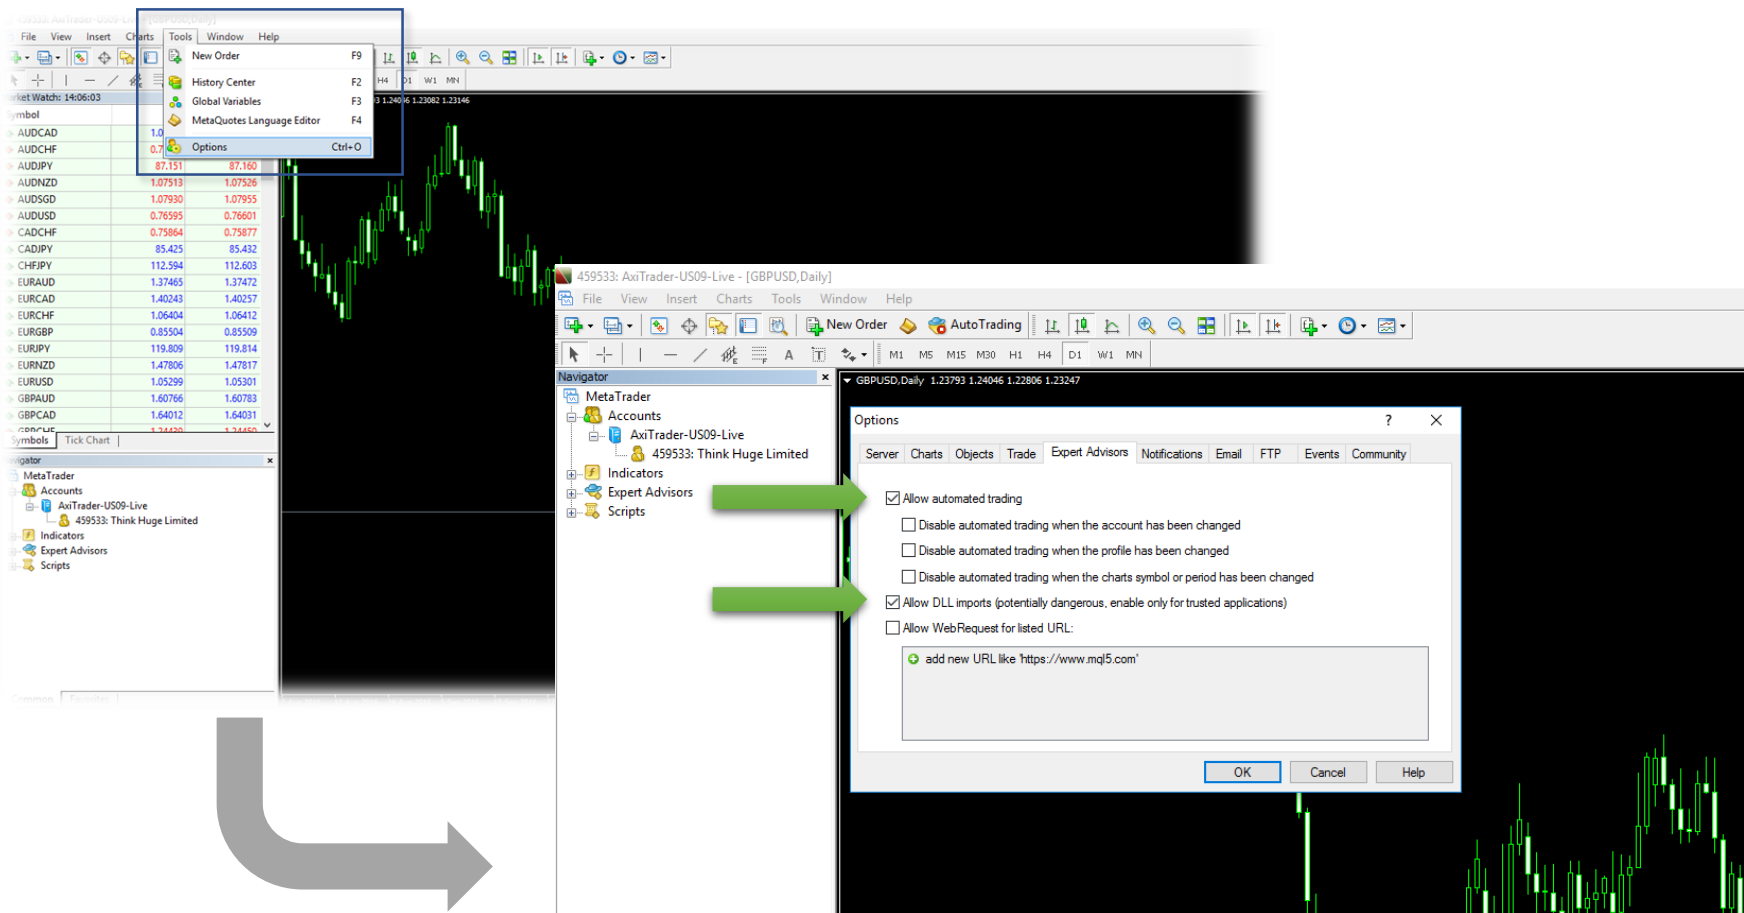

**MetaTrader 4 is the most popular
Forex trading platform.**

If you do not have MetaTrader 4, we recommend opening an account with Blueberry Markets or IC Markets. Click below to get either a demo or live account now!

Configuring your MetaTrader 4

Navigate to **"Tools"** at the top and then **"Options"**

Under **"Expert Advisor"** Tab

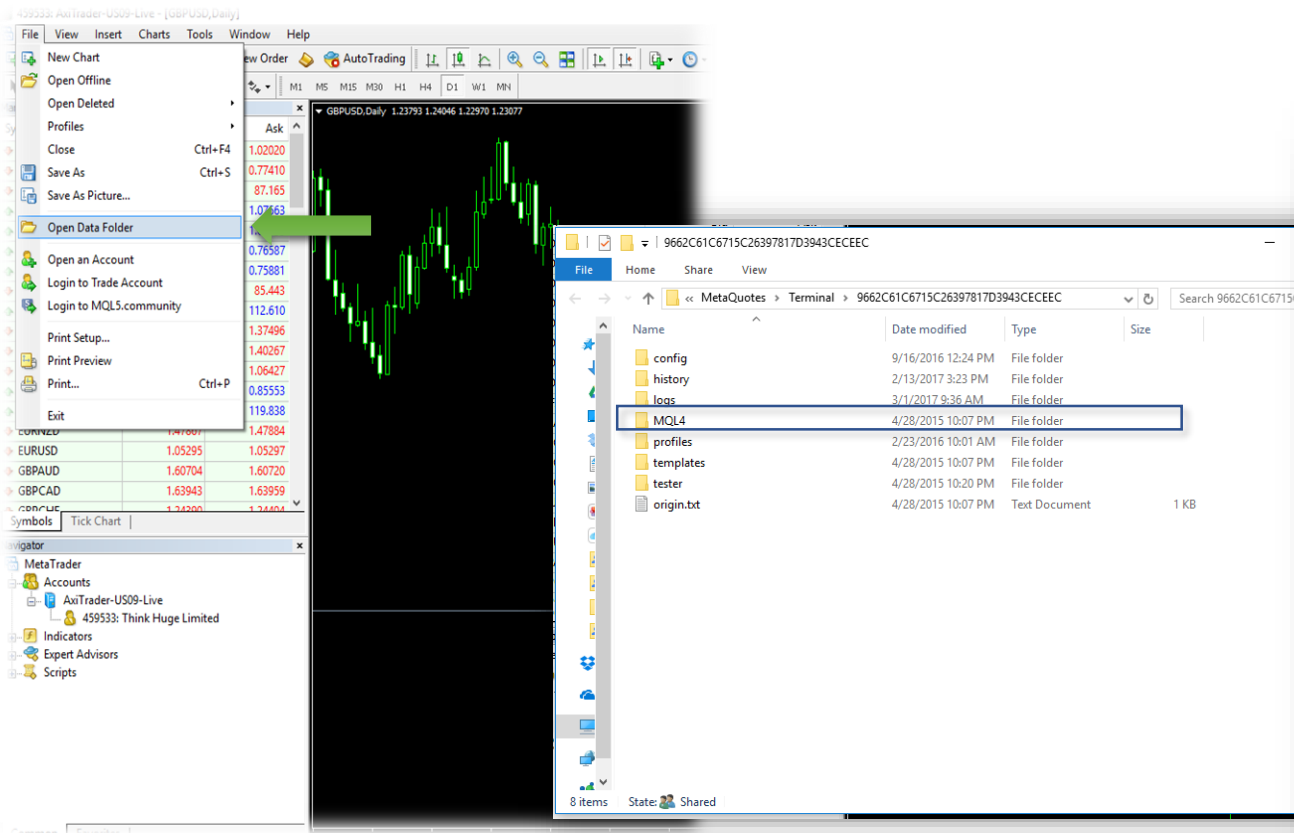

Tick the following:

- ✓ "Allow Automated Trading"
- ✓ "Allow DLL Imports"

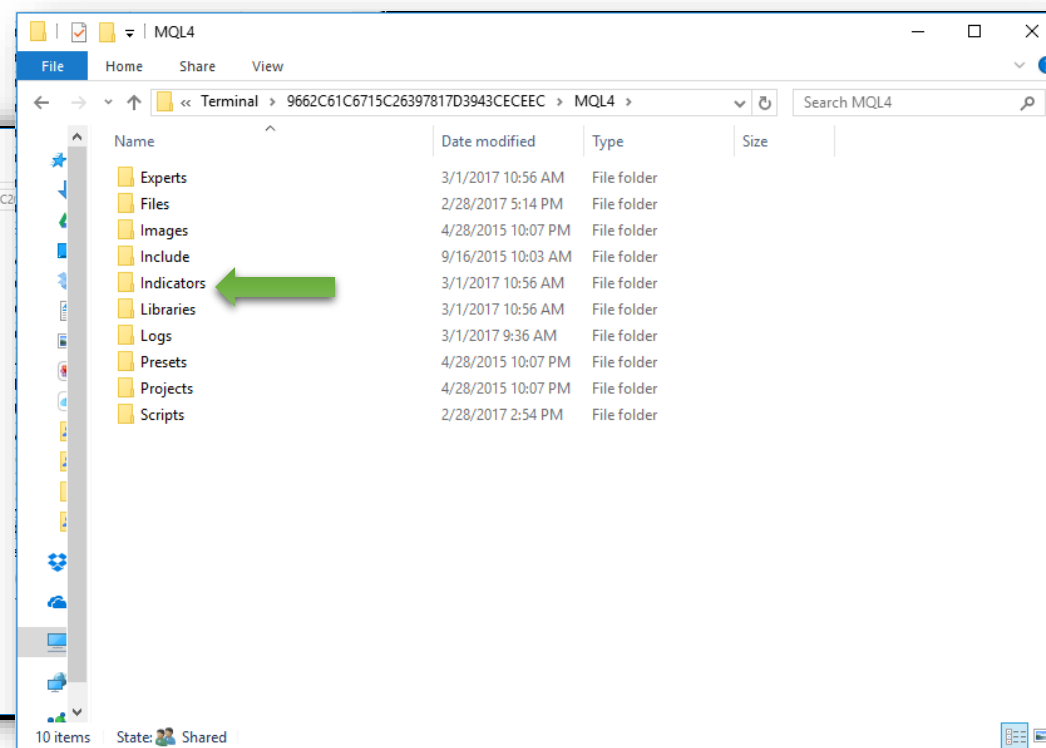

Then click **"OK"** at the bottom of this box when you're finished.

Adding the Indicator...

Navigate to "**File**" at the top left and then "**Open Data Folder**"

Drop the file into the "**Indicators**" folder

Open the folder named "**MQL4**"

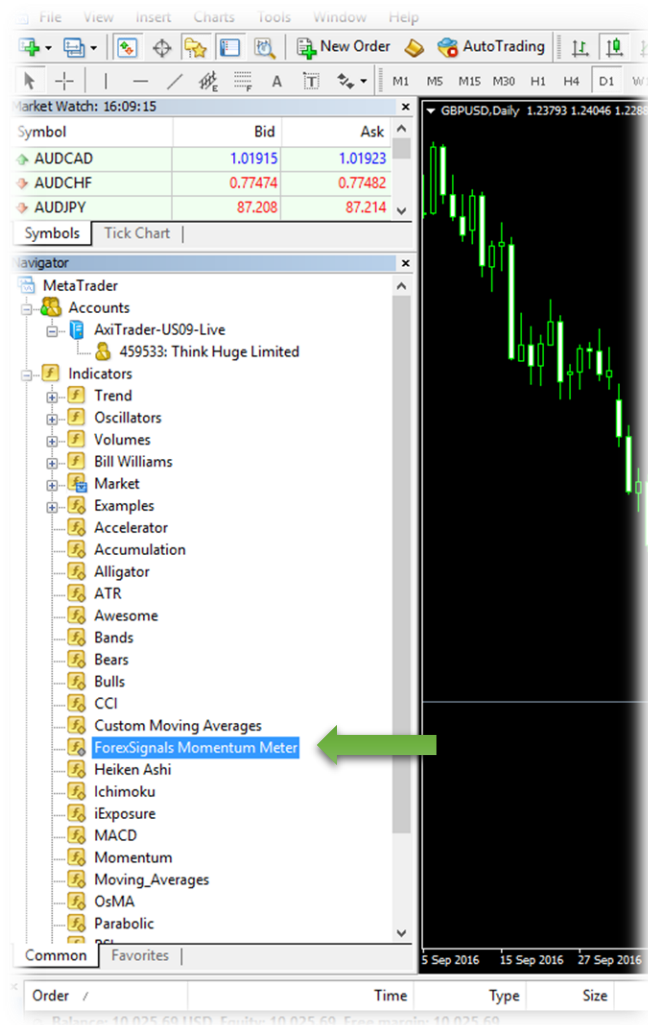

Restart your MetaTrader 4 platform...

Please now close the MetaTrader 4 platform and relaunch it. This will initialise the new programs that you have added from the previous steps.

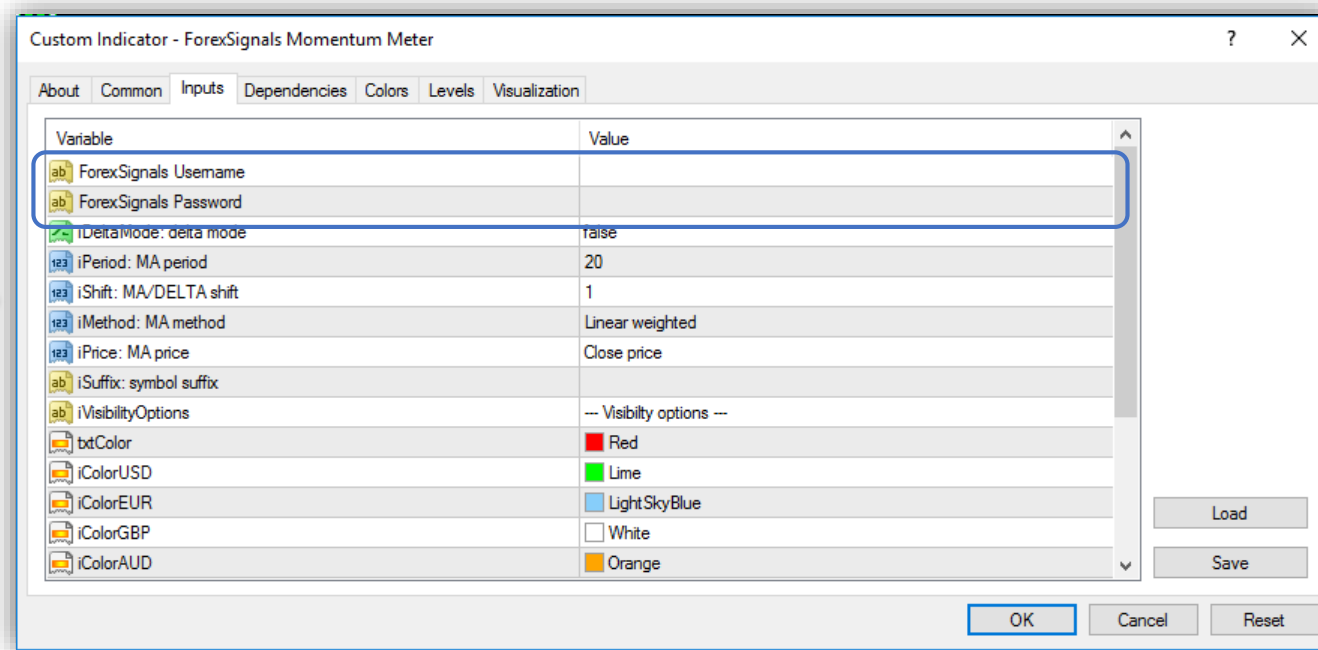

Next: Launching the indicator...

Launching the Indicator...

Navigate to “**Indicators**” on the left console.

Input your **Username** and **Password** from ForexSignals.com (example below)

Your **username** and **password** is the same as what you registered on Forex Signals
