# On Average the Best Month to Buy Gold Is March

IN AUGUST AND  
SEPTEMBER I TOOK  
MOST PROFITS BUT  
KEPT SOME LOTS  
OPEN FOR NEXT YEAR.

**I REPEAT THE WHOLE PROCESS  
AGAIN NEXT YEAR**

## Buy gold in...

1. **Early January, March or April, and late June.** The data show that you want to be fully positioned in both metals for the year before August.
2. **This year instead of next year.** You are likely to get a better price this year than by waiting till next year. Whatever amount you want for your long-term holdings, buy it this year.
