

Power of Two

General Rules

Pairs: EURUSD, GBPUSD & USDCHF

Timeframe: H4 & M15

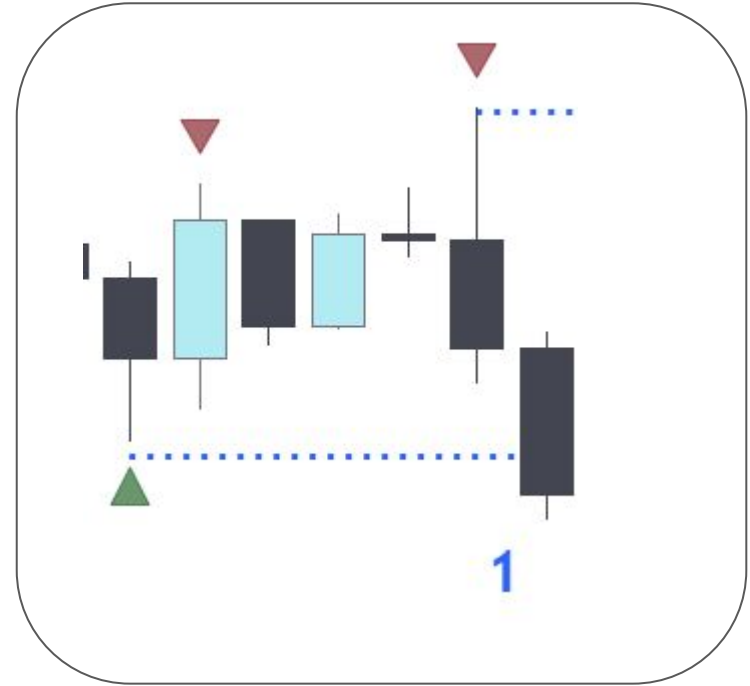

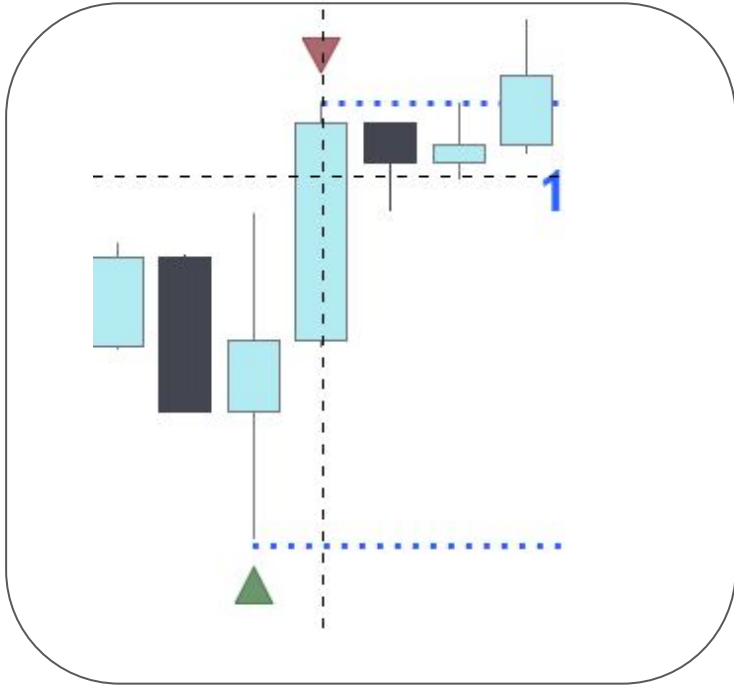

Killzones: (London) 0730 - 1000 & (New York) 1300 - 1530 (UTC +1)
(ie. 30 mins before London open to 2 hours into London session, & first 2 & half hours in New York session)

Indicators: Fractals & Sessions (to mark Killzones)

Possible set-ups at H4: Unconfirmed Bias, Strong Follow-Thru (SFT), Weak Follow-Thru (WFT) & No Follow-Thru (NFT)

Unconfirmed bias

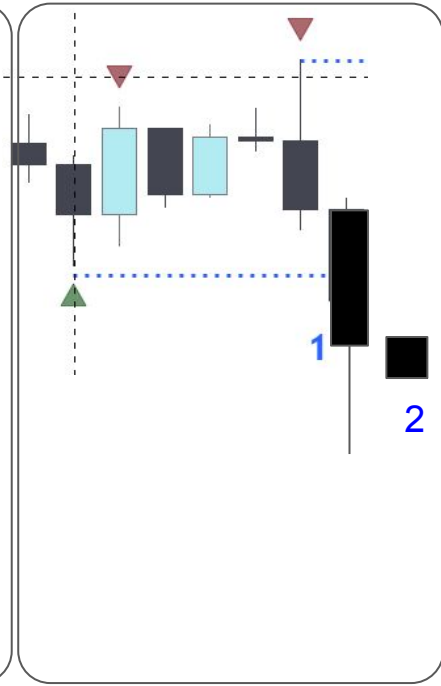

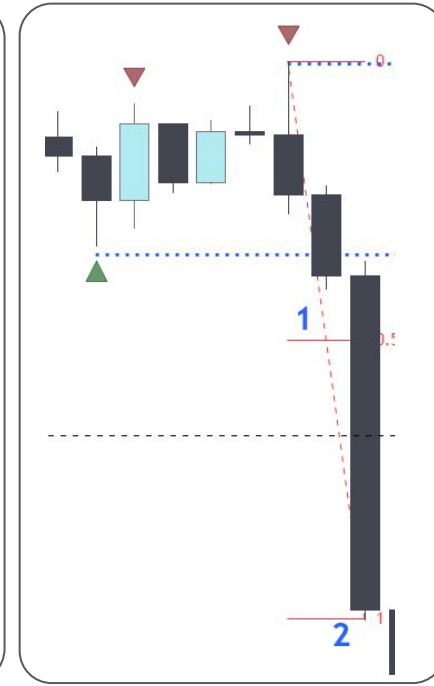

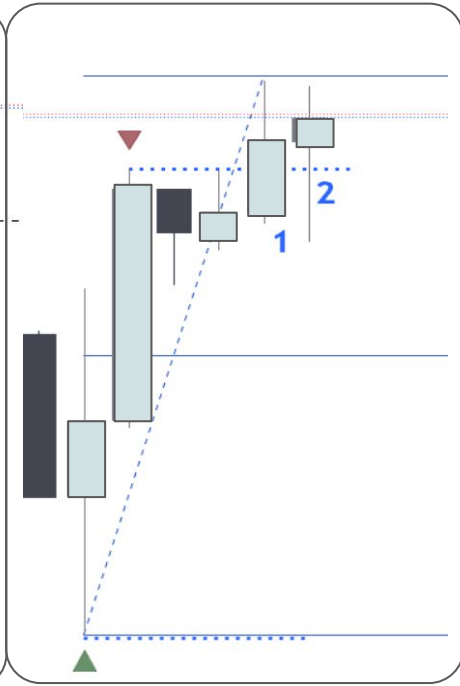

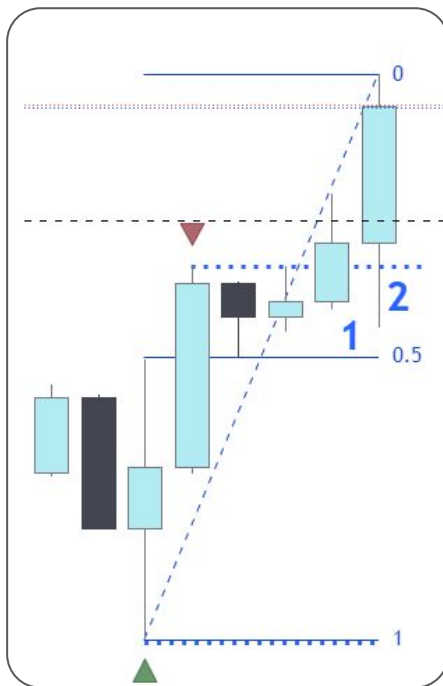

(At H4) A single bullish body close beyond a H4 range high,
OR A single bearish body close beyond a H4 range low

→ Wait for next H4 candle to close to confirm bias

Strong Follow-Thru

(At H4) When 2 consecutive candles closes above/ below the range high/ low.
No initial wick break.

Bullish bias

Bearish bias

Strong Follow-Thru

(At M15)

Bullish bias - (Trend-following) Buy at any point when a low fractal/ range sweep occurs.

(Counter-trend) Sell at Premium to Discount when a high fractal/ range sweep occurs.

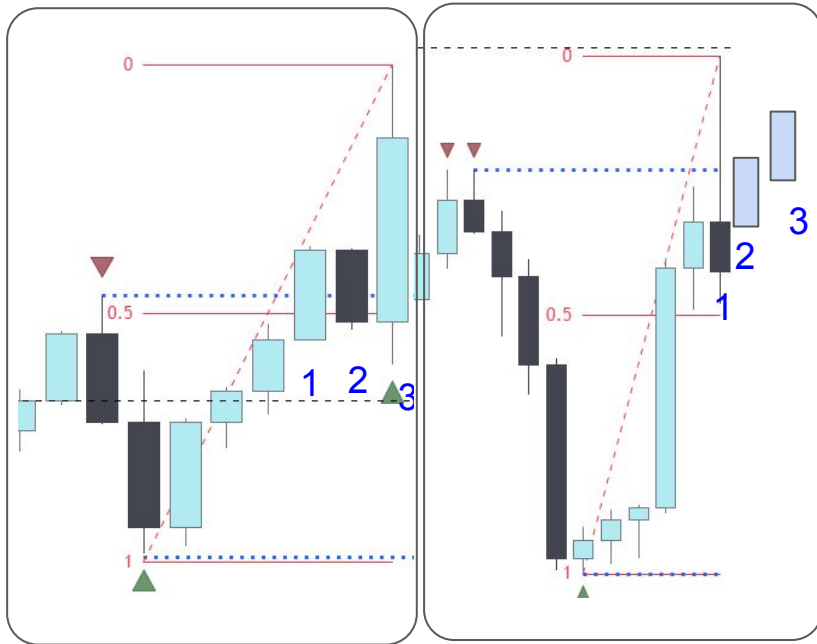

Bearish bias - (Trend-following) Sell at any point when a high fractal/ range sweep occurs.

(Counter-trend) Buy at Discount to Premium when a low fractal/ range sweep occurs.

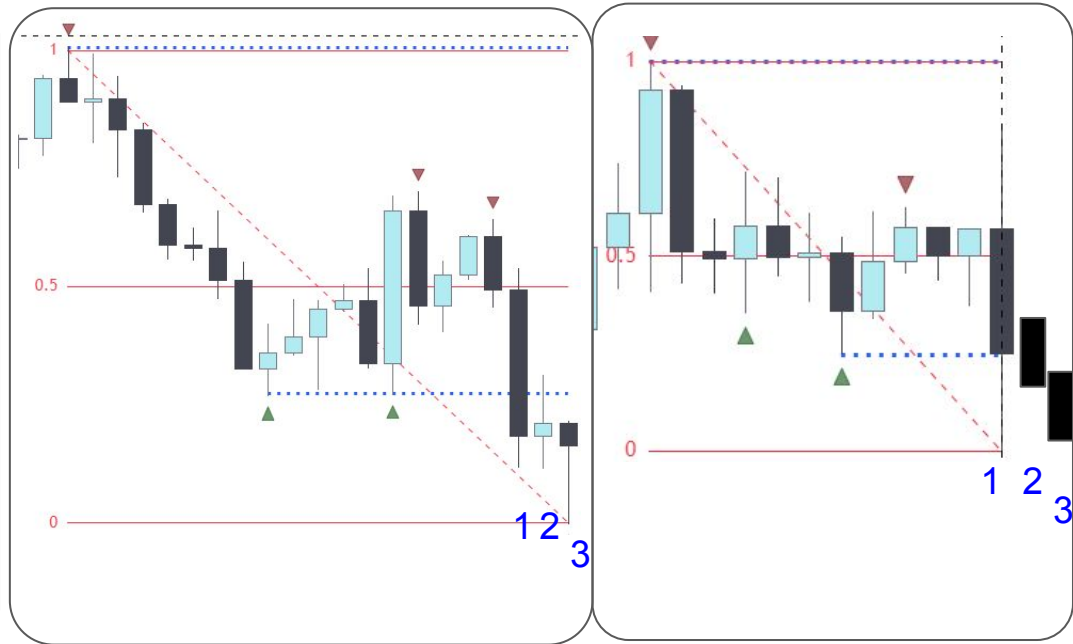

Note: While Counter-Trending, make sure TP is within the H4 range.

Weak Follow-Thru

(At H4) 2 bullish/ bearish bodies close beyond the H4 range high/ low in any order. Can include initial wick break. (Essentially a failed NFT).

Bullish bias

Bearish bias

Weak Follow-Thru

(At M15)

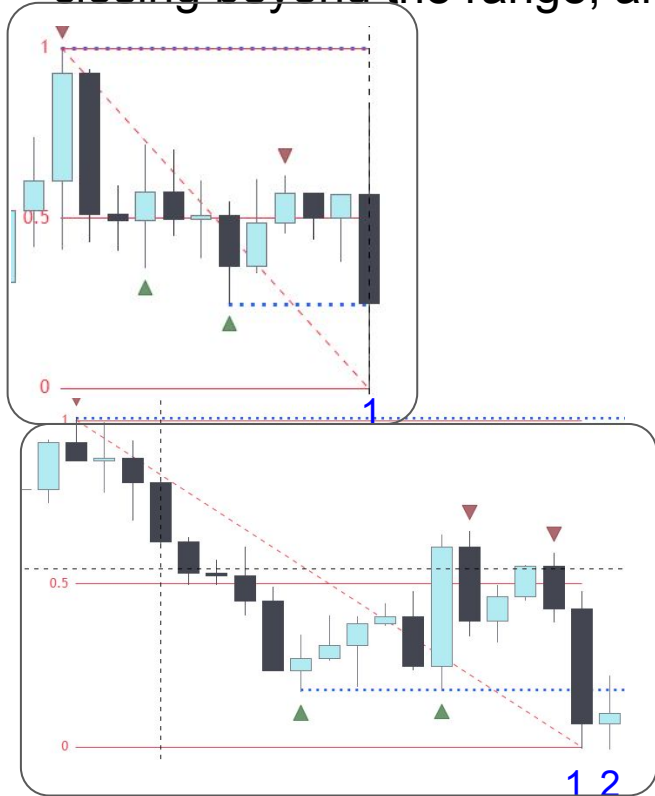

Bullish bias - (Trend-following) Buy at Discount to Premium when a low fractal/ range sweep occurs.
(Counter-trend) Sell at Premium to Discount when a high fractal/ range sweep occurs.

Bearish bias - (Trend-following) Sell at Premium to Discount when a high fractal/ range sweep occurs.
(Counter-trend) Buy at Discount to Premium when a low fractal/ range sweep occurs.

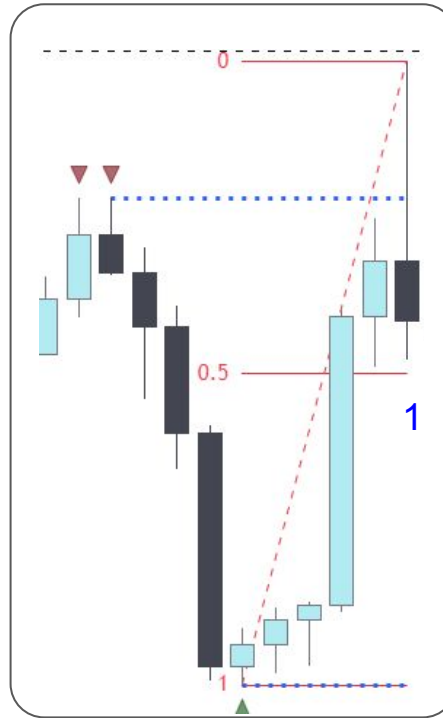

Note: While Counter-Trending, make sure TP is within the H4 range.

No Follow-Thru

(At H4) A wick rejection, with candle closing inside the H4 range, OR 1 candle closing beyond the range, and then followed by an opposite close.

Bullish bias

Bearish bias

No Follow-Thru

(At M15)

Bullish bias - (Trend-following) Buy at Discount to Premium when a low fractal/ range sweep occurs.
(Counter-trend) Sell at Premium to Discount when a high fractal/ range sweep occurs.

Bearish bias - (Trend-following) Sell at Premium to Discount when a high fractal/ range sweep occurs.
(Counter-trend) Buy at Discount to Premium when a low fractal/ range sweep occurs.

Note: Make sure the 3:1 fits into the entire H4 range for both Trend-Following and Counter-Trending.
